Comments	Your team canvas shows an excellent initial team alignment. You could directly place the team canvas on the 'Our path to a successful Team Canvas Board' wiki page (then no more clicks needed to see the canvas). You have started really well on the challenge delivering well-thought and researched outputs. The page is well structured and you have included good quality references. You have transcribed the interviews and you link them well to the wiki page. I am missing a compilation of the information that you are drawing from the interviews. All team members have access to the GitHub Repository, and you are using GitHub issues. Consider using comments in the issues. Great job and keep up the good work!
